Shawn Johnson, lead pastor of Red Rocks Church, gives a searingly honest portrait of anxiety and depression and shows readers how to fight back and live free. Shawn Johnson was the lead pastor of a thriving, fast-growing church. He was supposed to have it all together. But he was also struggling in silence with anxiety and depression, suffering from debilitating panic attacks that told him the lie that this would never end, that he'd spend the rest of his life in excruciating pain. Until one day he ended up sobbing and screaming on the side of the road. He had to be brought home by his wife and two friends, who removed any potential weapons from his house while he sat with his head in his hands, begging God for a miracle. In *Attacking Anxiety*, Shawn vulnerably shares about this dark time and offers those familiar with that same struggle everything he's learned in his battles with anxiety, depression, and hopelessness. As readers join Shawn on this journey, he will expose the lies that lead toward isolation and replace them with the truths that are essential to survival; reveal the things that most people don't realize are adding more anxiety and depression to their lives and replace them with the wisdom and support that lead to true freedom; explain what to do when you, or someone you love, is in the middle of a panic attack, and guide you through what you need to know, what you need to start doing, what you need to stop doing, and what you need to remember in order to start attacking anxiety and depression. This is not a one-and-done process that will completely free you from all brokenness, but it will help you recognize that, even in the middle of so much brokenness and overwhelming pain, God has a plan and a purpose for your life, and he is ready to heal you in ways you never thought possible.

The truth is that you can defeat your fears. With more than forty simple, effective techniques, you'll learn how to overcome every conceivable kind of anxiety without medication. Are you plagued by fears, phobias, or panic attacks? Do you toss and turn at night with a knot in your stomach, worrying about your job, your family, work, your health, or relationships? Do you suffer from crippling shyness, obsessive doubts, or feelings of insecurity? What you may not realize is that these fears are almost never based on reality. When you're anxious, you're actually fooling yourself, telling yourself things that simply aren't true. See if you can recognize yourself in any of these distortions: All-or-Nothing Thinking: "My mind will go blank when I give my presentation at work, and everyone will think I'm an idiot." Fortune Telling: "I just know I'll freeze up and blow it when I take my test." Mind Reading: "Everyone at this party can see how nervous I am." Magnification: "Flying is so dangerous. I think this plane is going to crash!" Should Statements: "I shouldn't be so anxious and insecure. Other people don't feel this way." Emotional Reasoning: "I feel like I'm on the verge of cracking up!" Self-Blame: "What's wrong with me? I'm such a loser!" Mental Filter: "Why can't I get anything done? My life seems like one long procrastination." Now imagine what it would feel like to live a life that's free of worries and self-doubt; to go to sleep at night feeling peaceful and relaxed; to overcome your shyness and have fun with other people; to give dynamic presentations without worrying yourself sick ahead of time; to enjoy greater creativity, productivity and self-confidence. With these forty techniques, you'll be able to put the lie to the distorted thoughts that plague you and your fears will immediately disappear. Dr. Burns also shares the latest research on the drugs commonly prescribed for anxiety and depression and explains why they may sometimes do more harm than good. This is not pop psychology but proven, fast-acting techniques that have been shown to be more effective than medications. *When Panic Attacks* is an indispensable handbook for anyone who's worried sick and sick of worrying.
