In the chaos of Milan's swiftly-converting industrial quarter, one massive space has been set aside for contemporary art. "Merkaba" documents Hangar Bicocca's first installation, the seven title towers, from the prototype stage to installation by cranes and pulleys to the spotlight. Each precarious-looking spire of cement and lead boxes has a name of its own as well. "Falling Stars," "Sternenlager," "Die Sefiroth," "Tzim-Zum," "Shevirat Ha-Kelim," "Tiqqun" and "The Seven Heavenly Palaces." Their towering silhouettes, some as many as 50 feet high, are as mystical as their titles suggest, but they also seem to make reference to all that is changing and staying the same in the city where they stand, home both to early sacred and secular towers and contemporary skyscrapers. Kiefer, known best for his reckonings with German history, proves that he can work the same alchemy elsewhere.

Movendo da una lettera del 1926 di Gershom Scholem a Franz Rosenzweig sulla condizione della lingua ebraica Derrida affronta i temi dell'esibramio, del sionismo, della spettralit\u00e0 e del messianismo, ricongiungendoli alla pi\u00f9 generale questione del Nome di Dio. Ne nasce un significativo contributo per riflettere su alcuni dei motivi che caratterizzano l'ultimo tempo dell'Opera del filosofo francese e per lasciare spalancare lo sguardo sull'oscura vertigine della lingua.

Here, Drunvalo Melchizedek presents in text and graphics the first half of the Flower of Life workshop, illuminating the mysteries of how we came to be, why the world is the way it is and the subtle energies that allow our awareness to blossom into its true beauty. Sacred Geometry is the form beneath our being and points to a divine order in our reality.We can follow that order from the invisible atom to the infinite stars, finding ourselves at each step. The information here is one path, but between the lines and drawings lie the feminine gems of intuitive understanding. You may see them sparkle around some of these provocative ideas: Explore the miracle of our existence by meandering through the wonderland of geometry, science, ancient history and new discovery, seen through the widened vision of Drunvalo and the Flower of Life.

Crayson and Switch have managed to escape into the wider Marshlands aided by two free-loading mercenaries, a feisty native girl and her dope-fueled baccy smoking father. Together the group has travelled to the Palace of Queen Gertrude so that they may seek Her Majesty's help in protecting them and their prize, and further request to find the other missing books of Zyzagarus, a task to which Crayson seems obsessed. That's because he reveals himself to be the son of the Mentor, a person capable of reading the secret knowledge inside the books in the absence of the Lost Child. Or so everybody thinks. Yet all is not as it seems. Crayson is holding something back, it appears their group is being stalked on the horizon and a mysterious figure known only as the Rezzonator covets the remarkable secret that lies at the books' centre. Yet there is dissension in the ranks as the mercenaries just want their reward, the Chief wants to set up a drugs cartel at the Palace, and his native daughter has an agenda of her own-To kill Her Majesty. Just before she and the others are shot by Royal snipers, an uneasy alliance to find the remaining books is agreed, a mission of particular significance to Switch as only the Zyzagarus Book of Medicine, one of three yet to be found, will restore his memory. Her Majesty readily agrees to finance this new mission but on one mischievous condition; that this quest is led by Captain Cupide the very man who attacked their bunker and tried to take their book in the first place.

Samadhi is the goal and the peak of meditation. According to classical and contemporary interpreters of yoga and meditation, samadhi denotes the unity of the subject and the object, the inner and the outer world, our Self and Absolute. In other words, enlightenment. Here, this unity is described simply as the unity of consciousness and existence. In this book you will find much more details about this unity, it will be revealed in a completely new way, you will comprehend that unity of the conscious and the existence in a man is gradually achieved at all levels of consciousness and being, on which a man exists and works, in all dimensions, and which are expressed in chakras, psycho-energetic centers in a man. Each chakra represents a blend of consciousness and existence. This blend is also manifested through the human culture of life and civilization. Understanding the chakra is connected to the historical development of the man and the events in the world, not only to the personal states of consciousness. It is an old and universal story of understanding the meaning of existence. In fact, the entire cosmos and life represent a spectrum of merging and expressing of consciousness and existence. Consciousness is expressed as existence and existence is fundamentally conscious. Moreover, consciousness is here explained in the light of an understanding of the consciousness of a man's soul as well, which through intelligent design, thanks to the quantum field creates the whole reality and existence. This can be because the soul of the man comes from the same divine consciousness that allows the whole existence. A complete connection and the realization of both consciousness and existence occurs only in a man who reaches Samadhi through meditation. The whole other nature, all of the cosmos and all of our lives, are just a scenography in which the drama of this merging is occurring. Though, paradoxically, Samadhi always already happens as a mere existence. The only question is whether a person participates in it all the time, whether he/she is aware of it. This book will help you to see the existence in such a way.
