Presidential Impeachment And The New

The Constitution of the United States gives Congress the authority to remove the president of the United States from office in two separate proceedings. The first one takes place in the House of Representatives which impeaches the president by approving articles of impeachment through a simple majority vote. The second proceeding, the impeachment trial, takes place in the Senate.

United States presidential impeachment - Wikipedia

Impeachment is a doleful affair. The nation has impeached a president only twice, and in each case the Senate failed to remove him from office, leaving a split decision with no clear winner and no...

Documents the emergence of a pattern of political instability in Latin America. Traditional military coups have receded in the region, but elected presidents are still ousted from power as a result of recurrent crises. Aníbal Pérez-Liñán shows that presidential impeachment has become the main constitutional instrument employed by civilian elites to depose unpopular rulers. Based on detailed comparative research in five countries and extensive historical information, the book explains why crises without breakdown have become the dominant form of instability in recent years and why some presidents are removed from office while others survive in power. The analysis emphasizes the erosion of presidential approval resulting from corruption and unpopular policies, the formation of hostile coalitions in Congress, and the role of investigative journalism. This book challenges classic assumptions in studies of presidentialism and provides important insights for the fields of political communication, democratization, political behaviour, and institutional analysis.

NAMED ONE OF THE BEST BOOKS OF THE YEAR BY Jennifer Szalai, The New York Times [] The New York Times Book Review [] NPR [] Publishers Weekly "This absorbing and important book recounts the titanic struggle over the implications of the Civil War amid the impeachment of a defiant and temperamentally erratic American president."—Jon Meacham, Pulitzer Prize-winning author of The Soul of America When Abraham Lincoln was assassinated and Vice-President Andrew Johnson became "the Accidental President," it was a dangerous time in America. Congress was divided over how the Union should be reunited: when and how the secessionist South should regain full status, whether former Confederates should be punished, and when and

whether black men should be given the vote. Devastated by war and resorting to violence, many white Southerners hoped to restore a pre-Civil War society, if without slavery, and the pugnacious Andrew Johnson seemed to share their goals. With the unchecked power of executive orders, Johnson ignored Congress, pardoned rebel leaders, promoted white supremacy, opposed civil rights, and called Reconstruction unnecessary. It fell to Congress to stop the American president who acted like a king. With profound insights and making use of extensive research, Brenda Wineapple dramatically evokes this pivotal period in American history, when the country was rocked by the first-ever impeachment of a sitting American president. And she brings to vivid life the extraordinary characters who brought that impeachment forward: the willful Johnson and his retinue of advocates—including complicated men like Secretary of State William Seward—as well as the equally complicated visionaries committed to justice and equality for all, like Thaddeus Stevens, Charles Sumner, Frederick Douglass, and Ulysses S. Grant. There was a last-ditch, patriotic, and Constitutional effort to render the goals of the Civil War into reality and to make the Union free, fair, and whole. Praise for *The Impeachers* “In this superbly lyrical work, Brenda Wineapple has plugged a glaring hole in our historical memory through her vivid and sweeping portrayal of President Andrew Johnson’s 1868 impeachment. She serves up not simply food for thought but a veritable feast of observations on that most trying decision for a democracy: whether to oust a sitting president. Teeming with fiery passions and unforgettable characters, *The Impeachers* will be devoured by contemporary readers seeking enlightenment on this issue. . . . A landmark study.”—Ron Chernow, Pulitzer Prize-winning author of *Grant*

The Politics of Presidential Impeachment takes a distinctive and fresh look at the impeachment provision of the US Constitution. Instead of studying it from a legal-constitutional perspective, the authors use a social science approach incorporating extensive case studies and quantitative analysis. Focusing on four presidents who faced impeachment processes—Andrew Johnson, Richard Nixon, Ronald Reagan, and Bill Clinton—they examine the conditions under which presidential impeachment is likely to occur and argue that partisanship and the evolving relationship between Congress and the president determine its effectiveness as an institutional constraint. They find that, in our contemporary political context, the propensity of Congress to utilize the impeachment tool is more likely, but given the state of heightened partisanship, impeachment is less likely to result in removal of a president. The authors conclude that impeachment is no longer a credible threat and thus no longer an effective tool in the arsenal of checks and balances. The book also offers a postscript that discusses the impeachment of President Donald J. Trump.

As Congress prepares articles of impeachment of President Trump, read the definitive book on presidential impeachment and how it should be used today. Impeachment is our ultimate constitutional check against an out-of-control executive. But it is also a perilous and traumatic undertaking for the nation. In this authoritative examination, Laurence Tribe and Joshua Matz rise above the daily clamor to illuminate impeachment's proper role in our age of broken politics. Now revised with a new epilogue, *To End a Presidency* is an essential book for anyone seeking to understand how this fearsome power should be deployed.

A short, accessible collection of key historic writings about presidential impeachment, as part of a new Penguin Classics series on liberty and constitutional rights. A Penguin Classic With the Penguin Liberty series by Penguin Classics, we look to the U.S. Constitution’s text and values, as well as to American history and some of the country’s most important thinkers, to discover the best explanations of our constitutional ideals of liberty. Through these curated anthologies of historical, political, and legal classic texts, Penguin Liberty offers everyday citizens the chance to hear the strongest defenses of these ideals, engage in constitutional interpretation, and gain new (or renewed) appreciation for the values that have long inspired the nation. Questions of liberty affect both our daily lives and our country’s values, from what we can say to whom we can marry, how society views us to how we determine our leaders. It is Americans’ great privilege that we live under a Constitution that both protects our liberty and allows us to debate what that liberty should mean.

This book presents a new theory for why political regimes emerge, and why they subsequently survive or break down. It then analyzes the emergence, survival and fall of democracies and dictatorships in Latin America since 1900. Scott Mainwaring and Aníbal Pérez-Liñán argue for a theoretical approach situated between long-term structural and cultural explanations and short-term explanations that look at the decisions of specific leaders. They focus on the political preferences of powerful actors - the degree to which they embrace democracy as an intrinsically desirable end and their policy radicalism - to explain regime outcomes. They also demonstrate that transnational forces and influences are crucial to understand regional waves of democratization. Based on extensive research into the political histories of all twenty Latin American countries, this book offers the first extended analysis of regime emergence, survival and failure for all of Latin America over a long period of time.

Charles L. Black Jr.’s classic guide to presidential impeachment, now in an updated edition with new material by Philip Bobbitt Originally published at the height of the Watergate crisis and reissued in 1998, two months before the second impeachment of a U.S. president, Charles Black’s *Impeachment* became the premier guide to the subject of presidential impeachment. Now thoroughly updated, it is essential reading for every concerned citizen. Praise for earlier editions of *Impeachment*: “The most important book ever written on presidential impeachment.”—*Lawfare* “A model of how so serious an act of state should be approached.”—*Wall Street Journal* “The best essay written on the subject.”—Jeffrey Rosen, *New Republic* “A citizen’s guide to impeachment. . . . Elegantly written, lucid, intelligent, and comprehensive.”—Mary Ann Gale, *New York Times Book Review*
